- English

ABOUT ME :-

Frontend Developer with hands-on experience in HTML5, CSS3, JavaScript, React JS, Bootstrap, Tailwind CSS, and API Integration. Skilled in developing responsive and user-friendly web applications, including e-commerce platforms, portfolio websites, and business management systems. Experienced in Zoho Creator and Deluge scripting for building low-code business applications, workflow automation, form management, and custom business solutions. Strong understanding of modern UI/UX design principles, responsive development, and problem-solving. Passionate about creating efficient web and business applications while continuously learning new technologies.

INTERNSHIP / TRAINING EXPERIENCE :-

ZOHO CREATOR DEVELOPER TRAINEE (AARDHRAA TECHNOLOGIES)

Completed a 2-month hands-on training in Zoho Creator focused on low-code application development and automation. Developed custom business applications tailored to organizational requirements, including the design of forms, reports, and interactive dashboards. Implemented workflow automation using Deluge scripting to streamline business processes and improve efficiency. Built a Supermarket Billing and Sales Management System to manage inventory, billing, and sales tracking. Developed a Student Management System with marks tracking and automated email notifications for improved communication.

FRONTEND DEVELOPER TRAINEE (ATOMEDGE SOFT PVT LTD)

Completed Frontend Development training at Automedge Software Solutions, gaining hands-on experience in designing and developing responsive E-Commerce web applications. Built interactive user interfaces using HTML, CSS, JavaScript, React JS, and Bootstrap while following modern UI/UX principles. Developed key E-Commerce features including product listings, shopping cart, wishlist, user authentication, order management, and payment pages. Worked on real-time projects to strengthen skills in component-based development, API integration, state management, responsive design, and cross-browser compatibility. Enhanced problem-solving abilities and coding best practices through practical project implementation and collaborative development.

PROJECTS :-

- E-Commerce Website

Developed a responsive E-Commerce web application using React JS, HTML, CSS, and JavaScript. Implemented product listing, search, cart, wishlist, user authentication, order management, and payment functionality with a modern user interface.

- Supermarket Billing System with Dashboard

Built a supermarket billing and inventory management system using Zoho Creator and Deluge. Developed billing, product management, sales tracking, stock monitoring, and an interactive dashboard for business reporting and analytics.

- Restaurant Website

Designed and developed a responsive restaurant website using HTML, CSS, JavaScript. Created attractive menu displays, food categories, online table reservation, contact forms, and mobile-friendly user interfaces.
